How to Make Line Graphs on Google Docs

1. Create a new spreadsheet in Google Docs.
2. Type your data into the cells, as shown below. Make sure to use YOUR data, not mine!

3. Highlight each box with writing in it.
4. Click Insert → Chart
5. Make sure the box that says Use row 1 as headers is CHECKED.
6. Click Charts → Line → then click the line graph on top.

7. Click customize.
8. Add a title and vertical axis title. Then click insert!
9. Copy and paste the graph into your lab report.
